csumbRize Python JES Function

csumbRize Filter Example

Description

This function takes two image objects consisting of the background image, and the CSUMB logo with a beach ball. The images are combined and then the text "We are the Sea Otters" in blue it placed at the top of the image along with "Nothing hOtter" just above the CSUMB logo. Finally a color filter is applied to add colors to the image that represent the school colors
